

All ProSamples sound files have been named according to a convention which gives as much information as possible about the sound. Following is an example of a file name with an explanation of the various components that make up the name, and what they mean. You will find that this system enables you to always identify any sound, even if you have copied the contents of many different ProSamples titles onto your computer's hard drive. You will also be able to search for different types of sounds more easily. The file names with a suffix of .wav (on disc B) are 'acidized' for use with Sonic Foundry's Acid™ and other software that reads Acid files. If you use the WAVE files with any other software (or hardware) the additional Acid™ data is automatically removed and the file becomes a conventional .wav file. The .exs files are for use with Emagic's EXS24 Sampler. The .fxp files are for use with Steinberg's HALion Sampler. The file names with a suffix of .aif are for software that reads AIFF files (usually Macintosh computers). The Akai S1000 format is read by most hardware and software samplers; if your native format is not supported, load the AKai format.

06a02fx120c#M.wav

This example has the following components: 06, a, 02, fx, 120, c#, M, .wav:

- 06 - ProSamples CD volume number.
- a - a to z represents a group of sounds that belong together.
- 02 - Sequentially numbered instrument sound.
- fx - Abbreviation of the sample type - see the full listing on this page.
- 120 - Tempo or Beats Per Minute (BPM) - only the loops have these.
- c# - Pitch of a sample. Note that no flats are used in the name, only sharps (A# instead of Bb).
- M - M represents Major, m represents Minor, sus represents Suspended.
- .wav - The file suffix (in this case denoting a WAVE format file). The suffix is not shown in the tables in this booklet as it varies for each format.

Some examples:

- 06a01drum120.wav - Drum Loop @ 120 BPM
- 06a02drum120.wav - Drum Loop @ 120 BPM, variation.
- 06b01drum120c#M.wav - Drum Loop @ 120 BPM in C#.

Multisamples:

- 07a01pno1c.wav
- 07a01pno1d.wav - Note use of number after the instrument type.

- 07b01bs2c.wav - velocity switch samples at the same pitch.

CREDITS / INFO

• In some of these samples you will hear sounds such as laughter, footsteps, breathing etc. We have included those intentionally as we feel they contribute to preserve Flamenco's natural features. The whole library has been recorded without any rhythmic reference, thus making the BPMs approximate. Try and use your imagination to create your own flamenco music and, most of all, enjoy!
