

## Using ProSamples™ "Dance Synths"

All ProSamples sound files have been named according to a convention which gives as much information as possible about the sound. Following is an example of a file name with an explanation of the various components that make up the name, and what they mean. You will find that this system enables you to always identify any sound, even if you have copied the contents of many different ProSamples titles onto your computer's hard drive. You will also be able to search for different types of sounds more easily. The file names with a suffix of .wav (on disc B) are 'acidized' for use with Sonic Foundry's Acid™ and other software that reads Acid files. If you use the WAVE files with any other software (or hardware) the additional Acid™ data is automatically removed and the file becomes a conventional .wav file. The .exs files are for use with Emagic's EXS24 Sampler. The .fxp files are for use with Steinberg's HALion Sampler. The file names with a suffix of .aif are for software that reads AIFF files (usually Macintosh computers). The Akai S1000 format is read by most hardware and software samplers; if your native format is not supported, load the Akai format.

### 06a02fx120c#M.wav

This example has the following components: 06, a, 02, fx, 120, c#, M, .wav:

- 06 - ProSamples CD volume number.
- a - a to z represents a group of sounds that belong together.
- 02 - Sequentially numbered instrument sound.
- fx - Abbreviation of the sample type - see the full listing on this page.
- 120 - Tempo or Beats Per Minute (BPM) - only the loops have these.
- c# - Pitch of a sample. Note that no flats are used in the name, only sharps (A# instead of Bb).
- M - M represents Major, m represents Minor, sus represents Suspended.
- .wav - The file suffix (in this case denoting a WAVE format file). The suffix is not shown in the tables in this booklet as it varies for each format.

### Some examples:

- 06a01dr120.wav - Drum Loop @ 120 BPM.
- 06a02dr120.wav - Drum Loop @ 120 BPM, variation.
- 06b01dr120c#M.wav - Drum Loop @ 120 BPM in C#.

### Multisamples:

- 07a01pno1c.wav
- 07a01pno1d.wav - Note use of number after the instrument type.
- 07b01bs1c.wav
- 07b01bs2c.wav - velocity switch samples at the same pitch.

### Construction Kits:

- Kit 1: 17a01mix120d.wav
- 17a01bs120d.wav
- 17a02bs120d.wav
- Kit 2: 17b01mix120d.wav
- 17b01bs120d.wav
- 17b02bs120d.wav

### Groups of samples - Drum Kits etc:

- 21a01bd.wav
- 21s01ohh.wav
- 21a02ohh.wav
- 21a01chh.wav etc.

## Abbreviations of Sample Type

### Miscellaneous types:

- amb: ambience
- arp: arpeggio
- bac: backings without drums
- gro: beats & grooves
- cmb: combination
- eth: ethnic sounds
- hit: hits & stabs
- mix: complete mix for construction sets
- nse: noise
- pad: pad sounds
- pls: pulsating sounds / wavesounds
- scr: scratch
- sfx: natural sound effects
- fx: electronic sound effects
- tek: techno/industrial sound
- sub: subbass (dance)
- zap: zaps
- voc: vocal
- vfx: vocal fx
- cho: choir
- spw: spoken words
- odd: oddities

### Drums & Percussion:

- kit: drum kit
- bda: bass drum acoustic
- bde: bass drum electronic
- clp: hand and machine claps
- drm: drums and drumloops
- cym: cymbal
- chh: closed hihat
- ohh: open hihat
- prc: percussion & percussionloops
- sdr: snare roll
- sda: acoustic snare drum
- sde: electronic snare drum

### Orchestral Percussion:

- bdo: orchestra bass drum
- gc: gran cassa
- ngg: gong
- cym: cymbal
- obl: orchestra bells
- tbl: tubular bells
- sd: snare drum

- tim: timpani
- wdc: windchimes
- prc: percussion

### Orchestral Instruments:

- orc: typical orchestra hits, runs, shots
- brs: brass hits, runs, chords, licks
- str: string hits, runs, chords, licks
- bbs: acoustic bass
- bsc: bass clarinet
- bss: bassoon
- ct: clarinets
- enh: english horn
- frh: french horn
- flt: flute
- hp: harp
- mlt: mallet
- mrb: marimba
- ob: oboe
- cl: cello
- va: viola
- vi: violin
- str: string
- tb: trombone
- tr: trumpet
- prr: piccolo trumpet
- tub: tuba
- vb: vibraphone
- xyl: xylophone

### Instruments:

- acd: accordion
- bjo: banjo
- bbs: acoustic bass
- bse: electronic bass
- gla: acoustic guitar
- gtd: distorted guitar
- gle: electric guitar
- hml: harmonica
- mdr: mandolin
- org: organ
- pno: ac Piano
- pne: el Piano
- rho: rhodes piano
- syn: synths
- sax: saxophone

### INFO

In Dance music it is often one keyboard sound that makes a particular track memorable and special, not just your usual preset, but something off the wall and out of the ordinary. Technotrance gives you these sounds arranged in logical and easy to find sets. All samples are recorded in mono. There are well over 1000 samples in this collection. The emphasis of these sounds is that they are quick to use and very effective. This sound collection is equally for those with "top-end" systems and basic set-ups. Using Technotrance, you will be able to build a very strong track. Every effort has been made to obtain the highest sound quality by compiling and mastering the sounds digitally; however, some of the older synths have inherent noise. This is compensated for by the uniqueness of the sounds themselves, many of which simply cannot be reproduced on modern equipment. Here are some notes about each type of sample included:

- TOP 20 STABS & PROGRESSIVE HOUSE HOOKS: These sounds work well as the main keyboard hook when digital delay is applied.
- CROSS FADED TRANCERS: Every Trancer has 4 samples of the sound, each with a different stage of the synth's filter opening.
- ACID TESTS: The language of acid from A to Z. Most of these sounds are quirky little FX and many defy description.
- TECHNO SYNTHS & FX: The Techno Pianos and the Techno Chords are samples of various chords. Both are very good for using in Breakdowns & intros. The Techno Synths and the Off the Wall Synth FX are various weird and wonderful FX that can be used for practically anything.
- BREAKDOWN PADS: As well as being good for Breakdowns, these can be used throughout a track. They blend well and don't get in the way in a mix.
- TOP END TINKLERS: These top end sounds add a sparkle to any type of track. The sounds are chosen for their ability to cut through a mix and add a good

balance to heavy drum & bass!

- ANALOGUE CORNER: Analogue corner gives you a taste of classic analogue FX from some great old synths. These are not the sort of FX that you can easily get out of modern synths. They give you the spirit of these machines without having to track them down and pay a small fortune for them!
- MISCELLANEOUS SYNTHS & FX / EURO STYLE: Simply put - these sounds are good for non effectual parts. These 'Euro' synths provide a strong base to build your track over.
- HOUSE & GARAGE: The main sounds you need for a basic garage/house track, and some garage organ chords. The 'Piano' is good for stabby rhythms.
- SWEEPING FILTER SYNTHS: These sounds add some movement to your tracks.
- ETHNIC EXPERIENCES: These sounds add a touch of the exotic and are especially good for "progressive" styles.
- EFFECTED DRUMS: Instead of lots of snares and kicks which everyone's got already - here are a selection of weird and effected drum voices. Either use as whole kits or just the odd voice in one of your own custom kits.
